7 weeks are taken off each year. One week is **not listed on the calendar** but will be announced at a later date. I reserve this week for illness or unforeseen situations. It will be added as an additional summer week if not used within months 12 months prior. These weeks have already been subtracted from the annual tuition. There are 45 lessons per year. Tuition has been divided by 12 months to make it easier on everyone. Tuition is always the same per month whether there are fewer or more lessons within that given month. Some months will have 5 weeks and others have less but students always get their 45 lessons per year. No pro-rations or make-ups. Any questions please call the studio at **(901) 779-3718**

Working on possible locations for 2025 recitals.
